NRCD Farm Team Owner/Manager Self-Assessment

This is a tool designed for use by farm owners and managers to self-evaluate their farms in a broad range of management areas. Items scoring 2 or less are prime targets for change and should become

topics to be discussed at Farm Team meetings. Determine how the various management areas of your farm rate using this 1-4 score. Provide a rating to the left of each sub-heading. Be critical – it's your assessment of your business!

1 = Needs improvement 2 = Fair 3 = Good 4 = Excellent

Farm Overview

1	1	2	1
	Z	.7	4

□□□□ Facilities – condition & efficiency of barns, sheds, shops, outbuildings, etc.
□□□□ Land – sufficient total acreage and tillable land to support the enterprise
□□□□ Machinery and Equipment
□□□□ Machinery and equipment storage
□□□□ Labor to meet operational needs (including family and employees)
□□□□ Labor pay & benefits (Fair pay? Health or other insurance? Other benefits?)
□□□□ Environmental – environmentally sound practices and water quality considerations
$\Box \Box \Box \Box$ Farmer/Farm family quality of life, satisfaction with lifestyle

Environmental/Conservation

1234

□□□□ Compliance with Vermont RAPs and/or other environmental regulations
□□□□ Adequate farmstead drainage
□□□□ Protecting waterways from pollution and erosion
□□□□ Water conservation practices
□□□□ Cover cropping and/or mulching
□□□□ No-till seeding
□□□□ Contour plowing, terracing
□□□□ Rotating crops
□□□□ Supporting pollinators and wildlife
□□□□ Current and approved Nutrient Management Plan (NMP)
□□□□ Following a conservation plan
□□□□ Following a grazing plan
□□□□ Wetlands protected/managed

Recordkeeping Financials Human resource management – scheduling and time off, insurance, benefits, etc. Resiliency (e.g., options to respond to markets and/or market fluctuations, crop or revenue insurance, diversification, etc.) Compliance with business regulatory requirements Business management (price setting, customer service, marketing & promotions, distribution, shipping, etc.) Business Plan for current enterprise Branding/Farm name recognition Congeterm plans – 5 years, 10 years, succession planning, etc. Other farm resources that contribute to total farm income (e.g., sugarbush/sugaring facilities, farm stand, guest/farmstay accommodations, etc.) Dairy and Other Livestock Assess all areas that apply to your farm.
